

# Court Reporters

## The Eighth Wonder of the World

**Scribe** – a person who copies out documents, especially one employed to do this before printing was invented. An ancient Jewish record-keeper, a professional theologian and jurist.

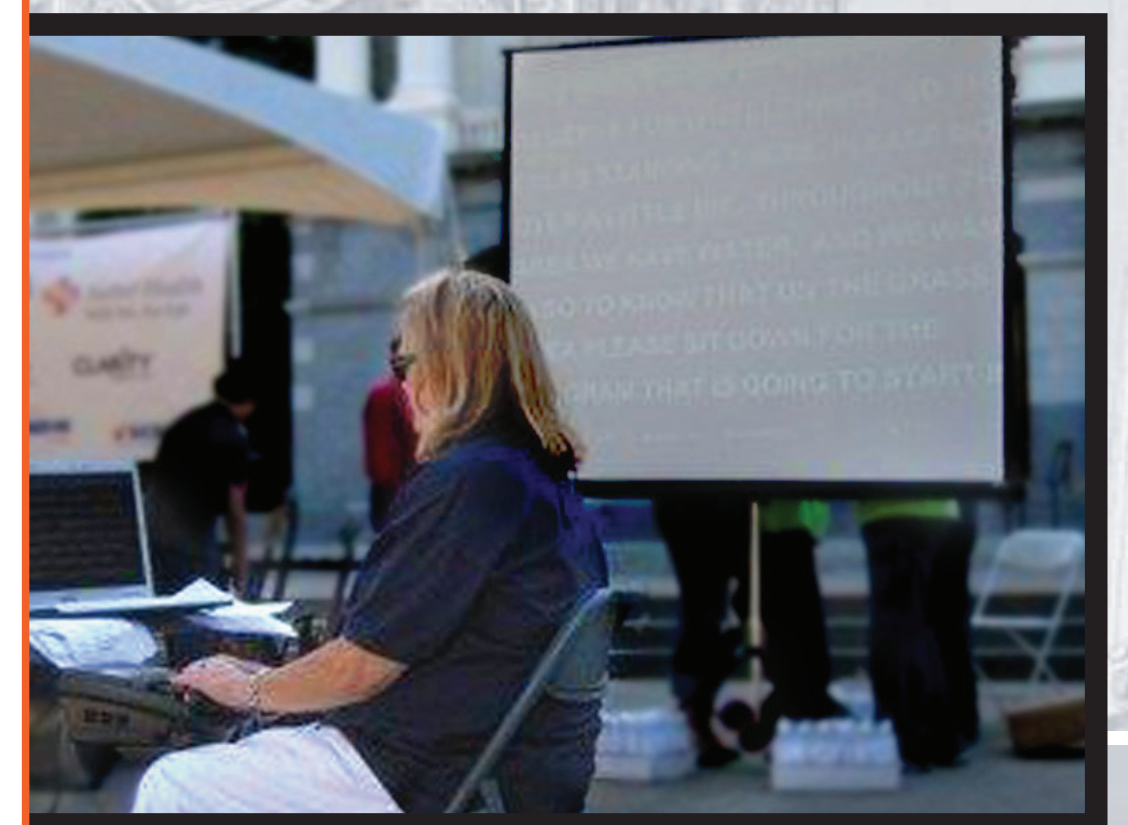

The **Broadcast Captioner** provides closed captioning services in realtime for live events, such as sports events, live news shows, programming during times of emergencies or natural disasters, and other live television events.

A **court reporter** writes the spoken speech into written form using machine shorthand to produce official transcripts of court hearings, depositions, and other official proceedings.

**CART or Real-Time Captioning.** CART stands for Communication Access Real-Time Translation. It is used by hard of hearing and deaf people who use English as their first language in all settings like schools.
